Explanation: Occassionally our club records have a faster time than the relay record for a particular lap: Bays Relay and Takahe Akaroa Relay are examples. This has come about because a new grade (say Junior Men or Masters Women) was added to the relay programme. The organisers of the relay elected not to include lap records for these new grades on a retrospective basis; because of the difficulty of obtaining and verifying those earlier times. However, our own club records do include runners running in other teams: a Junior Man running in Senior Mens team or a Masters Women running in a Senior Womens team are examples.

ALL ENQUIRIES REGARDING ROAD RELAY RECORDS SHOULD BE DIRECTED TO:

JOHN BARRANCE
